PROJECT CAPABILITY

We have completed a broad range of projects across farms, estates, lodges, commercial sites and security-sensitive properties. Our experience allows us to plan, manufacture and install practical perimeter solutions suited to each site, while maintaining reliable workmanship and professional project delivery.

WORKSHOP & OPERATIONS

Boland Fence & Maintenance operates with experienced installation teams dedicated to quality workmanship, safety and reliable project delivery throughout the Western Cape and surrounding regions.

Our workshop and fabrication setup supports in-house preparation, welding and manufacturing of gates, palisade fencing and custom security solutions.
